INTRODUCTION

The background of the slide is a gradient of blue. In the top right corner, there are two white, fluffy clouds. Between them are two black silhouettes of birds in flight. In the bottom right corner, there are stylized, wavy shapes in various shades of blue and white, resembling waves or a landscape.

This 7-day trip to Poland serves as a program of profound identity cultivation, utilizing educational sessions to establish a connection with our past and interweave it with our present and future.

This Travel Program brings lively discussions on contemporary ethics while witnessing sites used by perpetrators just 80 years ago. Miami Dade Public High School students have an opportunity to earn 0.5 HS credits (80 hours of instruction in the field of history).
